LOOK BOOK 2023

FIRE PITS, GAS LANTERNS, PILLARS & PILLOWS

SAY HELLO TO OUR '23 COLLECTION

A cosy evening on the couch with drinks, while the cold wind is blowing outside. That long-awaited, first truly pleasant day of spring. A warm summer's evening with friends and family in the garden. All of these beautiful moments in life are extra enjoyable with the ambience and heating products by Cosi, both indoors and outdoors.

No matter your wishes, thanks to our large variety of heating products and mood makers you will always find the perfect Cosi for you. From fire pits to gas lanterns, and from fire pillars to heating cushions. The complete Cosi collection is developed in the Netherlands, so everything is genuine Dutch Design. All of Cosi's ambience and heating products excel in terms of quality and eye for detail.

For more information about our products, specifications, manuals, service and maintenance, please visit www.cosi-fires.com. Follow us on Facebook, Pinterest and Instagram ([@cosi_fires](https://www.instagram.com/cosi_fires)) for a weekly dose of inspiration, the latest Cosi news and more!

Love. Cosi

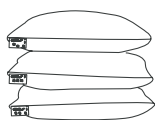

TAKE ME INSIDE

Have you heard? You can bring the Cosiscoop gas lanterns indoors! Extend the summer season with the pleasant warmth and atmosphere from various Cosi products and enjoy our perfect mood makers in the winter months as well.

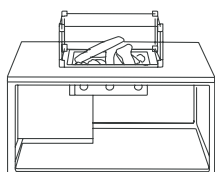

Do you like an industrial style, or do you prefer a natural look? Do you have a minimalistic or colourful interior? Cosi has the perfect Cosiscoop gas lantern for every space and style. Available in various designs and colours. For the complete gas lantern collection, check pages 74-77.

COSI HEATING CUSHIONS

Do you need some extra warmth when it gets chillier? Warm yourself with a Cosi heating cushion. Activate the heating element at the touch of a button and enjoy the Cosipillows' wonderful warmth!

COSIPILLOW

THE ONE THAT KEEPS YOU WARM

Would you like to enjoy more warmth while spending your time indoors on the couch or outside around your fire pit? It is possible with the Cosipillow heating cushions. These electric heating cushions have an infrared heating element and warm your body directly. The Cosipillows make chilly evenings inside and outside extra cosy and comfortable.

ENERGY SAVING

Did you know a rechargeable heating cushion is good for the environment as well as your wallet? The infrared heating element heats the body directly through the cushion, making you wonderfully warm in no time. As a result, you can easily turn the thermostat down a degree or two. Ideal in times of rising gas prices!

Cosipillow
Knitted grey

STYLISH DESIGNS

The Cosipillows are available in 5 beautiful, neutral designs. Thanks to the extensive collection there is always a heating cushion to match your interior and outdoor space! The cushions are fully covered with a beautiful fabric which makes them identical on both sides.

FOR INDOORS AND OUTDOORS

Use Cosi's rechargeable heating cushions all year round! During winter, keep yourself warm on your favourite spot on the sofa. When spring comes around, you can take them outside. The cushions are made of a high-quality Sunbrella fabric. This makes them colourfast and mould resistant.

COSIPILLOW

- Wireless heating cushion
- With infrared heating element
- 3 heat settings: 38 °C, 45 °C & 50 °C
- Colourfast and mould resistant
- Incl. rechargeable battery and adapter

For the complete Cosipillow collection,
check page 78.

COSI FIRE PITS

With one of Cosi's stylish fire pits, you are sure to enjoy your garden, balcony or terrace even more. Place the fire pit outside, next to a lounge set or garden bench, and warm up around your Cosi. The gas-powered fire pits turn your outdoor area into the perfect place to enjoy extra-long evenings with friends and family.

COSIBRIDGE

INFINITE STYLE

One of the new items in the Cosi collection for 2023 is the Cosibridge 140. This eyecatcher fits the latest outdoor trends perfectly. The fire pit is made of teak slats, which beautifully highlights the length of the table (140 cm). It's size leaves more than enough room to invite friends and family to spend a cosy evening together. The combination of teak with aluminium makes the fire pit low-maintenance and a durable choice.

Cosibridge 140
teak

COSILOFT

STYLISH DESIGN

The Cosiloft fire pits can be put together to match your personal style. These fireplaces have a beautiful, openwork aluminium frame in white or black, with a tabletop of your choice. There are three tabletops to choose from: grey, black and teak. The Cosiloft 100 is a table of 100 x 100 cm with a square burner, while the Cosiloft 120 measures 120 x 80 cm and has a rectangular burner. When the burner isn't in use, you'll be able to use the full surface of the table using the cover plate. This means more room for delicious snacks and beverages!

Cosiloft 120

COSILOFT ROUND

GATHER ROUND THE FIRE

Looking for a round fire pit for cosy evenings with friends and family? The Cosiloft 120 round might be the perfect fit for you!

This fire pit has an aluminium frame with a round teak tabletop. Whether you choose a white or black frame, this fire pit looks great in any outdoor area with a natural style.

Cosiloft 120 round
white / teak

Cosidesign Line
black / white marble look

COSIDESIGN LINE

DURABLE DESIGN WITH SLIM FRAME

The Cosidesign Line is a stylish fire pit with a marble look Dekton tabletop and a refined stainless steel frame. The combination of these materials makes the fire pit extremely strong and durable. The tabletop with marble look is available in two colours: black and white. A gas cylinder with a maximum height of 39 cm will fit in the designated place, incorporated in the sleek frame. The Cosidesign Line fire pits are both modern and timeless!

COSIFLOW

PERFECT MATCH WITH ALL OUTDOOR FURNITURE

The Cosiflow series excels in its simplicity. The Cosiflow is available in two versions: one made of aluminium and the other made of aluminium combined with teak. Both versions are available in the models square (100 x 100 cm) and straight (120 x 80 cm).

Thanks to its sleek design, the Cosiflow will look great with any garden set. Whether you opt for teak, fabric or wicker furniture, the Cosiflow will always match. There is an extra shelf below the Cosiflow tabletop, which can be used for storage purposes. If you want, a Cosiflow fire pit can be enhanced with a glass set and a table plate to place on top of the glass set.

SHOP THE LOOK

Various garden styles and various tastes. Cosi has atmospheric items for every style and taste for you to enjoy your indoor and outdoor area even more. Make things extra cosy and combine various Cosi items in your space! The Cosi collection offers a wide selection of fire pits, gas lanterns, built-in burners, fire pillars and heating cushions. This comprehensive collection is guaranteed to include the perfect Cosi products for you!

Cosipillow Knitted grey 50x50 cm, Cosipillow Knitted natural 50x50 cm, Cosi straight glass set, Cosi table plate straight, Cosiloft 120 black / teak, Cosiscoop Timber round, Cosiscope Original clay

Enjoy your indoor or outdoor area even more with our atmospheric Cosi items. You can combine our fire pits perfectly with a lounge set: in the garden or under a terrace roof. Invite all your friends and family and get comfortable around the fire of, for example, this Cosiloft. Thanks to its natural teak enclosure, the Cosiscoop Timber round provides a nice contrast with the sleek Cosiloft 120.

Want to continue the fun late into the evening? Then use our Cosipillows to gently heat your back. These heating scatter cushions feature an infrared heating element on the inside. When you sit back against these cushions, they heat up your body directly, so they'll keep you warm right away.

Is it getting too cold to sit outside? Continue your Cosi time indoors with our gas lanterns and heating cushions. Just imagine how the lanterns would light up your home. Thanks to our extensive collection, you'll always be able to find a Cosiscoop that is perfect for your interior.

COSIVISTA

CUTTING EDGE DESIGN

The Cosivista collection is unique. These fireplaces have two glass walls, which means you can gaze at the flames from both sides of the fireplace. Wall placement is also possible with the included back panel, so you can cover the Cosivista on one side.

The Cosivista 120 is able to house gas cylinders with a maximum height of 39 cm. Its bigger brother, the Cosivista 160, can even accommodate gas cylinders up to 60 cm high. This way, you'll be able to enjoy the warmth of the fireplace even longer.

Cosivista 120
anthracite

Including back panel for
wall placement.

COSIPURE

STAND OUT IN ANY OUTDOOR SPACE

Whether you prefer a natural look or a more modern touch, the Cosipure matches every outdoor style perfectly.

The Cosipure has a robust aluminium frame in black or white, with a tabletop of your choice: teak, black or grey. This way, you can create the perfect combination for your garden! Simply place a gas cylinder with a maximum height of 39 cm in the frame. The Cosipure is available in two sizes: 100 x 100 cm and 120 x 80 cm.

COSIBRIX

ALLROUND BASICS

Would you like a Cosi fire pit but only have limited space to work with? Our Cosibrixx 60 is perfect for you. This square model is the most compact fire pit in our collection. The Cosibrixx 60 is available in the colours: taupe, anthracite and concrete look.

Are you looking for more table space around the fire? Then you should go for the Cosibrixx 90 anthracite. All Cosibrixx items are made of aluminium which makes these fire pits maintenance-free and gives them a modern touch.

COSICUBE

STAY SNUG WITH COSICUBE

The robust Cosicube 70 models are made of Douglas wood in combination with a stainless steel quality top plate, making them very suitable for outdoor use. A gas cylinder with a maximum height of 39 cm can be placed behind the invisible hatch in the Cosicube.

The Cosicube measures 70 x 70 x 58 cm and is available in two different colours. The Cosicube in grey wash is perfect for a natural garden. Do you prefer a darker look? Then choose the Cosicube 70 black as your match.

Expand your table with a Cosi square glass set M. You can create extra table space by placing the Cosi table plate M on top!

Cosicube 70
grey wash

33

COSIPILLAR DOME

ENJOY THE HEAT UP HIGH

The Cosipillar Dome is a true eyecatcher in the garden, on the terrace or under the porch! Thanks to its big round burner ring, the pillar-shaped gas fireplace gives off pleasant warmth, up to 4 kW. Enjoy the atmospheric flames with family and friends for many long evenings.

This gas fireplace has space for a gas cylinder with maximum height of 52 cm. If you use a gas cylinder of 5 kg, the Cosipillar Dome will burn for around 16 hours. If you are using the included wheels, the gas fireplace can be moved around easily.

COSIBURNER BUILD UP

FREE TO MOVE

Would you like to enjoy the atmosphere of a Cosi fireplace at various places in the garden? Then opt for a Cosiburner build up. This standalone burner can be placed on any garden table. The Cosiburner build up includes lava stones and glass. The burner can be connected to any propane gas cylinder.

Cosiburner build up
black

Cosiburner square
ss

Cosiburner straight
black

COSIBURNER

MAKE IT YOUR OWN

Do you already have a beautiful outdoor dining or coffee table, and would you like to incorporate a gas fireplace into it? That's possible with one of our Cosiburners. The Cosiburner collection features two different built-in burners: square and straight. These are available in two finishes: black and stainless steel, so there's always a model that fits your project. By covering the burner with the cover plate, you'll still be able to use the full surface of the table whenever the burner is not in use.

The built-in burners are supplied with lava stones. Ceramic wood logs, a glass set and a table plate to put on the glass set are available as options.

black ss

COSI GAS LANTERNS

Give your indoor and outdoor space even more atmosphere and cosiness with a Cosiscoop gas lantern. In the extensive Cosiscoop collection, with lanterns in various colours, materials and shapes, there is always a mood maker that suits your style!

INDOOR &
OUTDOOR

HOW TO USE A COSISCOOP

STEP 1 OPEN

Hold the device upright while performing the following steps. Make sure that the control knob is turned off (OFF). Turn the black bottom ring clockwise to remove it from the Cosiscoop. Next, place the 190 grams gas cartridge upright in the black bottom ring.

STEP 2 PLACE

Turn the bottom ring, including the gas cartridge, back into the Cosiscoop. Keep turning until you cannot go any further and hear a click. Make sure the Cosiscoop is upright on a stable, non-flammable surface. Does the Cosiscoop come with glass and/or pebbles? Place the glass and pebbles on top of the Cosiscoop afterwards. Make sure the pebbles do not cover the burner.

STEP 3 ENJOY

Ignite the lighter (length at least 140mm) while holding it close to the burner, then open the control knob (ON). The Cosiscoop will start burning. A Cosiscoop will burn for 5-6 hours on one gas cartridge. To extinguish the Cosiscoop again, turn the control knob completely to the right (OFF). Store the Cosiscoop in a well-ventilated area.

Would you like to know more about the use of a Cosiscoop in your indoor or outdoor area? Then simply scan the QR code.

COSISCOOP ORIGINAL

TAKE IT ALONG WHEREVER YOU LIKE

Perfect mood makers till late at night! Enjoy atmospheric flames wherever you are, with our Cosiscoop Original. Thanks to the practical carrying handle and the compact size of Ø16x30 cm, you can take it with you wherever you go. This Cosi-to-go is very versatile, and available in many different colours. Create instant atmosphere with these amazing lanterns.

COSISCOOP ORIGINAL SMOKED

SMOKEY EYECATCHER

Looking for a gas lantern that fits your hotel-chic interior? Our Cosiscoop Original black smoked or gold smoked might be perfect for you. These lanterns are made with beautifully smoked glass, which gives them that extra luxurious feel.

What makes the Cosiscoop Original gold smoked even more unique, is the fact that it doesn't have a handle, unlike the other Cosiscoop Original models. These gas lanterns come with pebbles, and of course they're suitable for both indoor and outdoor use!

Cosiscoop XL
black

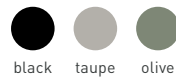

COSISCOOP XL

BROTHER OF THE ORIGINAL

Cosiscoop XL is the big brother of the Cosiscoop Original. The XL has a diameter of 20 cm and is a true eyecatcher on your salon or garden table.

Would you prefer the Cosiscoop XL in black, olive green or taupe? Taupe is the warmer version of grey and creates a calm and peaceful look, which will match perfectly in any garden or interior style.

Cosiscoop Timber
square

COSISCOOP TIMBER ROUND & SQUARE

NATURAL BEAUTY

Looking for a gas lantern sheathed in natural materials? Our Cosiscoop Timber might be a great option for you. The casing of this lantern is made of teak, so it will boost your garden or interior with a natural look. Do you prefer the Cosiscoop Timber round or square?

Cosiscoop Timber
round

COSISCOOP CEMENT SQUARE, BOLD & ROUND

A REAL STATEMENT

A gas lantern from the Cosiscoop Cement line is what we would call a collector's item. The use of cement-like materials in combination with glass makes these lanterns robust as well as atmospheric. The Cement is available in three models: Cosiscoop Cement square, Cosiscoop Cement round and Cosiscoop Cement bold.

The Cosiscoop Cement bold is a robust gas lantern. The glass partly covers the concrete, giving the lantern a modern look. The square version, the Cosiscoop Cement square, will match a sleek, industrial interior or outdoor area perfectly thanks to its angular design.

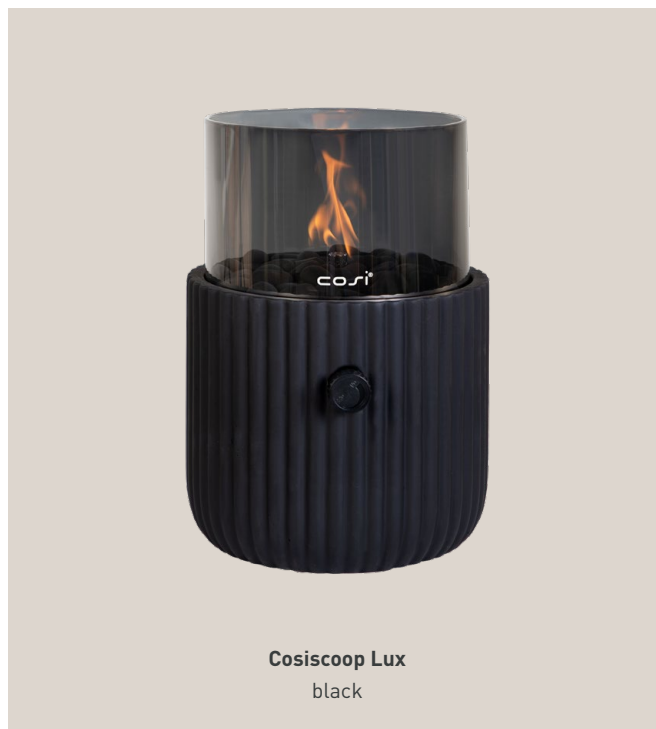

COSISCOOP LUX

LUX STANDS FOR LUXURY

The Cosiscoop Lux is a luxurious gas lantern with a ribbed black body. This gas lantern is supplied with a glossy smoked glass. A perfect choice if you're looking for something extra for your indoor or outdoor area. When lit, the Cosiscoop Lux creates a subtle flame to enjoy cosy moments. The lantern is 30 cm high, has a diameter of 21 cm and is available in black.

Cosiscoop Rope
warm grey

Cosiscoop Rope
black

COSISCOOP ROPE

NO STRINGS ATTACHED

This beautiful gas lantern was developed to match the latest garden furniture trends. The Cosiscoop Rope is made of aluminium with braided rope. The rope is suitable for outdoor use: it's colourfast and mould resistant. The freestanding lantern has a diameter of 45 cm and is no less than 74 cm high. In terms of appearance, the Cosiscoop Rope is somewhere between a gas lantern and a fire pillar. The freestanding lantern is available in warm grey and black and is guaranteed to be a mood maker in your indoor or outdoor area.

COSISCOOP BASKET & BASKET HIGH

LANTERN IN THE SPOTLIGHT

The Cosiscoop Basket is not an accessory, it's a statement. It stands out because of its steel wire coat – a real eyecatcher on your outdoor table. The Cosiscoop Basket will create atmosphere and cosiness anywhere.

The Cosiscoop Basket high is a beautiful standalone object. This Scoop is just slightly different from the Basket. The lantern has a glass casing and is placed on a higher frame, which means you can place it anywhere in a certain space.

WHICH
COLOUR
SUITS YOU?

black white olive

Cosiscoop Dome

COSISCOOP DOME & URBAN

STYLISH LANTERN

This gas lantern has a striking appearance. The Cosiscoop Dome has everything you may expect from a luxurious lantern: a stylish, sleek design in two colours, white and black. Thanks to the full glass sides, you'll have a perfect view of the flames from every angle. The Dome will look beautifully on a large table or a stylish pillar.

Are you looking for an industrial gas lantern with a natural touch? In that case, the Cosiscoop Urban is perfect for you. Because of the combination of teak and white or black metal, the Urban is always the perfect choice.

Cosiscoop Urban
white

Cosiscoop Urban
black

Cosiscoop Dome

COSISCOOP ICONIC

ON THE GO

The Cosiscoop Iconic is a rugged, cool gas lantern and comes with a lid. The Iconic is the smallest Scoop in the collection, so you can easily bring it along with you. When the Iconic is turned off, you can place the metal lid on top. Even when it's not burning, the Iconic will be a real eyecatcher in your (outdoor) area.

COSISCOOP PILLAR

PIONEERING FIRE

These pillar-shaped gas fireplaces will steal the show in the garden, on the terrace and under the porch. The Cosiscoop Pillar is available in two versions: stylish black and sturdy teak.

The big lanterns burn on a 5 kg gas cylinder. One of these is enough to enjoy about 70 hours of beautiful flames.

Gas lanterns	0.7 kW	190-grams gas cartridge	Max. 50 g. per hour	Pebbles and glass* *not included with Cosiscoop Basket, Urban & Iconic	

	Heat capacity	Energy usage	Battery life	Included accessories
Heating cushions	38°C / 45°C / 50°C	12 W	High ± 2 hours / low ± 5 hours	Rechargeable battery, charger

FUELS

We made the conscious decision to make the Cosi fire pits to only work on propane gas, and not on natural gas. Propane is one of the cleanest fuels in terms of CO₂ emission. Cosiscoops work on a 190-grams pierceable cartridge, usually with a mix of butane and propane gas.

CERTIFICATES

All Cosi fire pits are tested and certified by KIWA / GASTEC Netherlands and carry the CE and UKCA quality marks.

The wood used in Cosi products is FSC and SVLK certified, which stands for sustainable forest management. This way, Cosi guarantees high-quality and safe products.

MATERIALS AND CARE

Material	Care
Teak	<p>Cosi uses teak wood with the SVLK quality mark, which stands for sustainable forestry. Teak is a very suitable, strong type of wood often used for outdoor furniture and can easily be kept outside all year round. However, if kept outside, teak will turn grey as a result of UV radiation. If you want to preserve the original colour, we recommend treating the teak with a teak protector.</p> <p>If you want to protect teak wood against moisture, dirt, algae growth or mould, we recommend you treating the teak with a teak sealer. This will keep your teak looking good a lot longer.</p> <p>Teak wood is not suitable to use with a protective cover. Leave the teak item outside and uncovered or store it in a well ventilated area.</p> <p>Teak wood is a natural material, which means that it will keep changing over time, which may result in tears and/or deformations.</p>
Gas lanterns	<p>Our Cosiscoop lanterns are made to stay outside all year. However, you can make sure they stay beautiful longer by storing them in a ventilated area or indoors in case of persistent bad weather.</p> <p>The Cosiscoops are also suitable for indoor use.</p> <p>Leave the gas cartridge inside the Cosiscoop if it's not empty yet.</p>
Aluminium	<p>The aluminium that is used in Cosi products is powder coated. This powder coating provides an extra protective layer. Aluminium is perfect for outdoor use, because it has a long lifespan and it's low-maintenance. Furthermore, aluminium is perfect for recycling. Aluminium is easy to clean with warm water and mild cleaning detergents.</p>
Dekton	<p>Dekton is an ultracompact and high quality material made of glass, quartz and porcelain, which can stay outside all year. Dekton is colourfast, scratch proof, stain-resistant, and easy to clean with warm water and neutral soap.</p>
Stainless steel	<p>Stainless steel is extremely weatherproof. Cosi often uses this material for installation materials as well as frames. Stainless steel can show surface rust over time. This can be removed with a stainless steel cleaner.</p>
Glass	<p>All glass sets for the Cosi fire pits are made of tempered glass. The glass was heated up to 650 degrees Celsius and then cooled down to make it very strong. Tempered glass is up to 5 times stronger than regular glass, and less susceptible to tears and breakage.</p>
Textile	<p>Our Cosipillows have Sunbrella fabric cushion covers. Sunbrella fabric is colourfast, mould-resistant and waterproof. Furthermore, these fabrics have the OEKO TEX quality mark. All Cosipillow covers are suitable for the washing machine; make sure to follow the washing instructions on the inside of the cover.</p>
Covers	<p>You can protect a Cosi fire pit or pillar with a protective cover. Only cover the Cosi when the fire pit is cooled off and dry, in order to avoid moisture damage. Remove any stagnant rainwater from the cover and frequently air out the fire pit by taking off the cover. Teak is not suitable to cover, therefore Cosi doesn't recommend using a cover for a teak item. Aluminium can be covered with a protective cover. Do make sure that any moisture is drained and there is space between the tabletop and the cover. You can do this by leaving the glass set between the cover and the tabletop. This will prevent moisture damage in the aluminium.</p>
